

Disclaimer Notice EUPHORE DATABASE SERVICES

General Information

Databases on the EUPHORE Web site include such examples as FTIR cross-sections, UV cross-sections, DNPH-MSn carbonyl spectra, experimental protocols and data, chemicals, documents and analysis tools. They are designed to provide and encourage facile access within the scientific community and users of the EUPHORE Laboratories to sources of current and comprehensive information. Therefore, Fundación CEAM itself places no restrictions on the use of the data contained therein. However, the origin of the data should always be given when distributed or published. Submitters of the original data may claim patent, copyright, or other intellectual property rights in all or part of the data they have submitted. Fundación CEAM will not assess the validity of such claims and, therefore, cannot provide any legal advice in this respect concerning the use, copying, or further distribution of the information contained in the databases.

The views and opinions of authors expressed on EUPHORE Web sites do not necessarily state or reflect those of Fundación CEAM, and they may not be used for advertising purposes.

Liability

For documents and data available from this server, Fundación CEAM does not warrant or assume any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, analysis procedure, tools or process descriptions disclosed.

Security

We inform the users of these Web pages that for site security purposes, as well as to ensure that this service remains available to all registered users, software tools are used to monitor access and site traffic. Unauthorised attempts to upload or change information or otherwise cause damage will be recorded and those users excluded from further access.

External Links

Some Web pages may provide links to other Internet sites for the convenience of users. Fundación CEAM is not responsible for the availability, content and Privacy Policy of these external sites. These sites will always open in a new target window to avoid source mismatches.
